Avant-garde | Expertise | know-how

20TH JULY 2024 | DAY THREE | SCHEDULE

The third day of the conference is dedicated to customized, private “one-on-one” meetings, providing a valuable opportunity to deepen relationships, exchange ideas, and address specific issues in detail. This mode allows participants to focus on topics of interest to them and meet with key stakeholders to discuss issues relevant to their goals.

These customized appointments allow participants to explore opportunities for collaboration in more detail than the broader, more generic presentation formats. Each participant has the opportunity to make meaningful connections with Italian partners who can offer specific insights or resources relevant to their industry or project.
